

CHILLERS SERVICES

Optimizing Chillers to Help Improve Your Facilities

Because chiller plant optimization is critical to overall building performance, EMCOR Services Shambaugh's certified and **factory-authorized experts** offer single-source, comprehensive solutions for all types of chillers—including centrifugal, reciprocating, and screw. We've built a reputation for outstanding **repair, maintenance, overhaul, and replacement.**

We Know Your Chiller Type and Brand

Because we're manufacturer-independent, or brand-neutral, our trained technicians can service, repair, and install nearly any chiller on the market including:

- > Carrier
- > Daikin
- > Dunham-Bush
- > Smardt
- > Trane
- > York

Specialized Centrifugal Chiller Expertise

We have extensive experience working with centrifugal chillers, providing service, repair, and support for some of the largest and most sophisticated central energy plants in the region.

WHAT CAN WE DO FOR YOU?
